**Farm Location: Fallbrook**

**Farm Size: 1.5 acres**

**Main crop: Avocados**

## **HILLCREST HEALTHY GROVE**

Meet Lance and Wendy Kelson of Hillcrest Healthy Grove in Fallbrook! They acquired their property a little over three years ago and have been providing delicious avocados to their community ever since! Since moving to Fallbrook from Maryland, Lance and Wendy have fallen in love with their property and their surrounding community. Despite working a day job, Lance feels as though working on the farm isn't even work at all. "After sitting in front a computer all day, I'm ready to get outside." Lance enjoys listening to the singing birds and admiring the prolific California poppies on the farm.

The grove itself is 50 to 60 years old and has approximately 50 avocado trees on it, including varieties like Fuerte, Hass, Queen, and Holiday. Hillcrest Healthy Grove is located a bit away from downtown Fallbrook and has a unique microclimate that is perfect for growing avocados. Lance and Wendy are very passionate about their farm and their avocado trees. "We take good care of our trees, even the leaves are shiny and bright!" The secret to their avocados being so delicious must come from the well water used on the property, it is sweet and clean and even Wendy enjoys drinking from it! In addition, Hillcrest Healthy Groves is registered organic, so no pesticides or herbicides are used and all the weeds are picked by hand.

If you try one of Lance and Wendy's avocados, you'll find that there is no comparison. They have a lot of flavor compared to those at the store, and many customers keep coming back again and again! Lance and Wendy truly love growing avocados for others, "It is a pleasure to hear how happy we can make our customers."

Check out Hillcrest Healthy Grove's avocados today by calling 949-351-7174.
